Indianapolis, IN
www.linkedin.com/in/ethan-starling/

Profile

Driven, motivated software developer with experience in C#, multi-tasking, and ASP.NET driven by 500+ hours logged of coding time and training. Exposure to HTML and CSS while applying technical and critical thinking skills gained from those experiences. A strong background in leadership and customer service provides me an advantage to manage people and deal with different customer situations in a fast-paced environment.

Education

- **Eleven Fifty Academy, Software Development Immersive Learning Program, Indianapolis IN, May 2022**
  - 12-week immersive learning program for software development taught with industry-guided curriculum, real-world project-based learning, and 500+ hours logged of coding time and training
- **Purdue University, Bachelor of Science in Geology, West Lafayette IN, December 2015**

Competencies & Functional Skills

Problem solving, competent data management, multi-task management, customer service, deadline regulation, agile methodology, portfolio development, troubleshooting

Technical Skills

Languages/Libraries: C#, ASP.NET, SQL, Power BI
Cloud Technologies: Azure, GitHub
CI/CD: Agile, Git
Databases/ORM: Entity Framework, SQL Server, Relational Databases
Web Technologies: CSS, HTML, MVC, APIs, Bootstrap, Responsive Web Design
Testing Tools: MSTest

Technical Projects

- **Spongebob ASP.NET API**
  - Utilized C# and swagger to build an api for the Spongebob show for characters/places/items.
- **US Parks ASP.NET MVC Web application**
  - Utilized HTML 5, CSS 3, Bootstrap 4, and C# to design a mvc web application that allows the user to look up specific state and national parks and see the various attractions and nature within them.
- **Several Business Console applications**
  - Utilized C# to construct several console applications pertaining to the logic of business's requests.
